

Karndean Hi-Tack

BPIR Declaration

Version: 1.1 - November 2023

Designated building product: Class 1

Declaration

Karndean Designflooring Pty Ltd has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product

Name	Karndean Hi-Tack
Line	DGL Bondlast Adhesives

Description: Karndean Hi-Tack

- Is a water based, acrylic, pressure sensitive flooring adhesive suitable for installation of loose lay Karndean LVT flooring in accordance with Karndean installation guidelines.

Scope of use: Karndean Hi-Tack

- Is suitable for use as a Karndean vinyl flooring adhesive for areas classified as normally dry.
- Is recommended for use with Karndean Looselay flooring per Karndean's loose lay installation guides.
- Is suitable for heavy duty residential and moderate duty commercial applications.
- Is suitable for use with underfloor heating systems.

Conditions of use: Karndean Hi-Tack

- Is not suitable for exterior use.
- Is not suitable for use in areas subject to constant flooding (e.g. shower stalls).
- Must be installed in accordance with NZS AS 1884 and Karndean installation guidelines.

Relevant building code clauses

- B2 Durability – B2.3.1 (c)
- F2 Hazardous building materials – F2.3.1

Contributions to compliance

- B2.3.1(c) Karndean Hi-Tack is engineered to exceed NZ building code durability requirements (5 years) when installed with Karndean Gluedown and Looselay flooring products in accordance with appropriate NZS standards and Karndean Installation guidelines.
- F2.3.1 Karndean Hi-Tack is not considered hazardous under the Hazardous Substances and New Organisms Act (HSNO), according to the criteria in the Hazardous substances (Hazard Classification) Notice 2020.
