"I liked the fact that Karndean provided me with a variety of product options. I sent over a picture of our space, and Karndean matched up the flooring selections to our Dunkin' Donuts colors, which are central to our branding. They also worked the Dunkin' Donuts logo right into the flooring – something that is really attractive and different. The products were easy to install, which saved us time and money."

"This project required a strong, durable product with ease of maintenance, with the additional challenge of matching the time period and other décor," Wolfe said. "Karndean Designflooring was our go-to. Dr. Kinney and I searched online for historical photos of prohibition era speakeasies and matched our findings to the Karndean Designflooring catalogs."

Gary Wolfe, President of Abbey Carpet & Floor of Livermore

Color and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in color and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.
