Product: Michelangelo Iconic, Umbrian Nero (MX92) and Navarra Chalk (MS2)

Sector: Healthcare

Navarra Chalk MS2

■ Navarra Chalk MS2

■ Umbrian Nero MX92

■ Umbrian Nero MX92

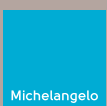

An Evesham charity specialising in respite care for children with disabilities has been able to add the perfect finishing touch to its new multi-sensory room.

New Hope transformed its facilities by replacing dated carpet with Karndean floors throughout its multi-sensory room, kitchen, hallway and jubilee play room.

Karndean recommended its 'Navarra Chalk' Spanish pebble effect flooring and 'Umbrian Nero' mosaic pattern flooring as the perfect solution for the specialist care facilities.

"Karndean have not just provided us with a floor, they've given us a floor that meets the requirements of the children that get so much joy from spending time with us," explains Jean Wilson, founder and director of New Hope.

"The touch and texture of our new floors will help us engage and interact with the children. What's more, being so durable and easy to clean means our staff can spend more time playing and enjoying time with the children, rather than having to worry about everyday spillages, scuffs and wear."
