→ **TARKETT**

Tarkett has extended its acclaimed Desso Desert AirMaster collection with the addition of six new shades to its colour palette. Inspired by nature, the design boasts a diffused, marble-effect pattern, created through pairing an irregular motif with one of two background tones. This combination affords carpet tiles a unique outcome every time, offering endless creative possibilities. The versatile range can be used to set either a calming or stimulating ambience in workplace interior spaces through the offer of nine neutral shades and three accent hues. tarkett.co.uk

↑ **KARNDAN DESIGNFLOORING**

Inspired by timbers sourced from European forests, Karndean Designflooring's Savannah Oak offers an elegant, understated style. Featuring subtle golden hues, a pale and delicate sandy shade runs through the grain to form an attractive pattern. Designed to accommodate a growing desire for highly realistic flooring, Karndean's latest Art Select wood designs feature intricate patterns for impressive variation across the floor. In this 18" x 3" parquet format, Savannah Oak can be laid on its own or used in combination with matching extra-large (56" x 9") planks to create zoning or walkways for a sense of grandeur and interest across open-plan spaces. karndean.com

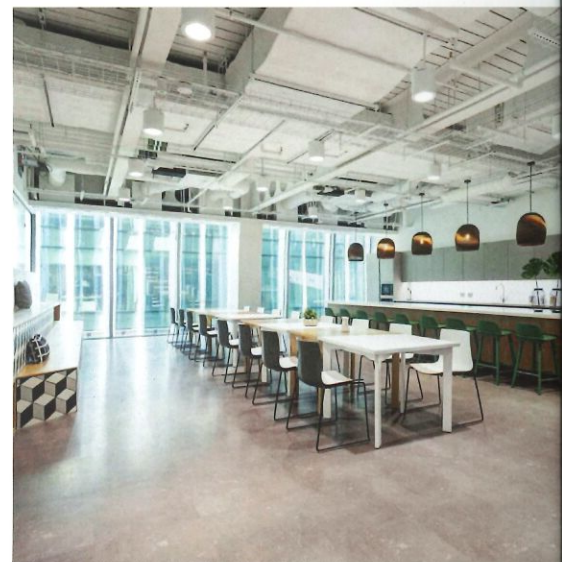

← **KÄHRS**

New light absorbing wood floors. Following the successful launch last year of the Kährs Lux and Lumen ultra matt lacquer flooring collections, the leading European flooring manufacturer have now introduced four new, Nordic inspired whitewashed and grey-toned ultra matt designs to their range. Available in the Lumen Collection is a selection of ash designs with the popular ultra matt surface treatment, ranging from warm white Drift and soft white Ardor, to stone grey Ash Verve. Joining Kährs' calmest collection of wood floors, the Capital Collection is Oak Prague – a plank style floor with greyish notes throughout and finished with the ultra matt surface treatment. kahrsflooring.com

→ **QUADRANT**

Concrete, the most destructive material on Earth – and more fashionable than ever. We know how concerned designers are about the environmental impact of the spaces they create. That's why we're proud to offer two concrete-look flooring products that are more practical and sustainable than the real thing. Salto, our loose-lay LVT, is hard-working, easily installed and designed for busy spaces. Its distinct concrete aesthetic is created using high-definition digital prints and structured surface textures. Corkrete, from our cork range, is a stunning interpretation of concrete with all the acoustic and insulating properties of cork. Learn more on our website quadmod.com

↑ **JUNCKERS**

A feat of architectural innovation, Storey's Field Centre & Nursery by architects MUMA has won multiple awards, including RIBA East Building of the Year, the regional Sustainability Award, Architect's Journal 'Design of the Year', a shortlisting for the Stirling Prize as well as top prize at the 2018 Wood Awards. Built with sustainable, high quality materials, the building features nearly 400 sq m Junckers Oak Classic flooring. Ideal for use in a large public space, Junckers' solid wood flooring is durable and easy to maintain. junckers.co.uk
