Luxury Homes

In 1992 Demista revolutionized the bathroom mirror market by introducing a heated mirror pad which adhered to the back of the mirror to prevent condensation from forming on the glass. The inconvenience and frustration of these foggy mirrors was therefore eliminated forever, giving you a clearly perfect steam free mirror without the need for time consuming wiping or costly cleaning products. Demista has been proven and accepted nationally and internationally and through its unique reputation and unblemished track record has been the number one choice for specifiers of mirror defoggers for over 26 years. Demista has been fitted in hotel developments globally and has become the industry standard. With over 400 sizes now available, Demista can cover virtually any mirror in 230V, 120V, 24V, 12V, Demista can also make bespoke sizes if required.
