

LEED CERTIFICATION: TECHNICAL STATEMENT

This document verifies that **Karndean luxury vinyl flooring** can enable project teams to earn credits for the **LEED® Certification** of New Construction (NC), Homes (H), Commercial Interiors (CI) or Existing Buildings (EB). The table below describes the applicable credit criteria.

LEED System	Applicable Category and LEED Credit Name
NC, CI	MR4.1, Recycled Content
NC	EQ4.3, Low Emitting Materials – Flooring Systems
EB	MR3, Sustainable Purchasing – Facility Alterations
Н	MR2, Environmentally Preferable Products

- Karndean flooring contains approximately 50% recycled content.
- Karndean flooring is GREENGUARD Certified for low-VOC content.
- Due to these environmental characteristics, Karndean vinyl flooring is a choice product to be used on LEED existing buildings operations and maintenance (EBOM) projects, especially as regards facility alterations or additions. It is also considered an "environmentally preferable product" for those working on LEED for Homes projects.
- Further, Karndean products are manufactured in factories that recycle 95% of manufacturing
 waste and comply with ISO 14001 (environmental management) and ISO 9001 (quality
 management) certification standards; the glues and cleaners for the product line are VOC
 free; and the product can be completely recycled once it has reached the end of its life cycle.

This product has been reviewed by a third party **LEED Accredited Professional**. If you have any inquiries about how this product helps projects qualify for LEED Certification credits then please feel free to contact us using the information below.

Sincerely,

Vincent Bataoel, LEED AP President, ABOVE Green LLC vincent@abovegreen.com http://www.abovegreen.com
