LOOSE LAY

Loose lay

At Karndean we
see flooring differently...

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs.

By combining these original features with cutting edge design, we create simply beautiful floors that bring your vision to life.

Why Karndean?

All the benefits of Karndean Designflooring...

From large commercial environments to residential projects, at Karndean Designflooring, our vast range of products offer the essential benefits that make our luxury vinyl tiles and planks the perfect choice for any flooring space.

Realistic wood and stone designs

Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

Lifetime warranty*

Designed to give you peace of mind, every Karndean floor is guaranteed to last for years to come.

Easy to clean and look after

A sweep and mop with Karndean Clean is all you need to keep your Karndean floor looking great.

Waterproof

Karndean's waterproof floors stand up to spills of all sizes and won't swell, crack or warp when wet.

Durable

Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

K-Guard+®

We use K-Guard+® surface technology for scuff and stain resistance ensuring there is no need to apply an additional surface treatment following installation.

Hygienic

Unlike carpets, our floors don't hold dust, dirt, pollen or other allergens.

Compatible with underfloor heating

For added warmth, our flooring is perfectly suitable for underfloor heating systems up to 27°C.

Comfortable underfoot

Our products are softer and warmer underfoot than natural wood and stone flooring.

Quiet compared to other hard floors

Karndean is quieter underfoot compared to most hard flooring alternatives.

Kid friendly

Karndean floors offer children a safe and comfortable space to play, and parents a durable, easy-to-clean surface.

Pet friendly

From muddy paw prints to household accidents and anything in-between, Karndean's low-maintenance floors are designed with pets in mind.

Environmentally friendly

All Karndean floors are 100% recyclable and environmentally friendly.

Resists indentation

All Karndean floors stand up to the impact of day to day life.

* >15 years commercial & 35 years residential

Sector applications

Karndean
European
Longboard

Karndean
European
Originals

Retail

With the highest abrasion wear rating (Group T) and availability in a wide range of colours and designs, you can create interesting retail flooring designs that are not only stylish, but also durable to withstand heavy footfall.

Dakota **LLT212**
Concrete

Social Housing

Offering both durability and resilience, our loose lay products are individually replaceable should damage occur.

Danbury **LLP154**
European Oak

Multi-Res Buildings

Our K-Wave® friction grip backing reduces noise transfer and therefore does not require a separate acoustic underlay reducing installation time as well as cost. It also conforms to the Building Code of Australia for multi-residential dwellings

Brockton **LLP153**
European Oak

Health & Aged Care

Loose lay is an excellent solution for busy health and aged care environments where cleanliness and durability are of paramount importance. It is softer under foot than many hard floors, providing a more comfortable and quieter environment for residents.

Vulcano **LLT211**
Concrete

Education

Loose lay's durability and ease of maintenance makes it an appealing, resilient and pragmatic solution for universities, colleges, schools and community centres. Its acoustic properties make it a good choice for music rooms.

Hartford **LLP112**
Rustic Oak

Offices

An ideal option for office flooring, creating a space that's comfortable, inspiring and practical. It can also be used where access is required to in-floor electricity and network cables.

Pure Fabric Oak **LLP329**
Character Oak

This design has been achieved by laying the planks in a herringbone pattern

House Build

With highly realistic designs and quick installation, our loose lay ranges are the perfect choice for homebuilders and contractors alike.

Pure Danish Oak **LLP357**
Danish Oak

Leisure & Hospitality

Our loose lay ranges are versatile, well-established and proven choice for the demands of gyms, hotels, restaurants and leisure facilities where the look, resilience and ease of keeping floors clean is vital.

Wheat Oak **LLP355**
White Oak

Loose lay's unique benefits

Karndean Loose Lay Longboard and Loose Lay Originals ranges offer quick installation and individually replaceable planks and tiles, our loose lay format is perfect for floors that need minimal disruption and maximal design flexibility. Reducing sound transfer to rooms below, making it the perfect option for upstairs rooms or apartments.

Featuring our innovative K-Wave® friction grip backing, holding the product in place using weight and friction and combined with our tried and tested K-Guard+® finish providing a hygienic, durable surface protection that is quick and easy to clean with a pH-neutral cleaner.

Individually replaceable: Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.

Quick and easy to install: Our loose lay ranges can be fitted over most existing hard floors.

Reduces noise transfer: Our loose lay ranges are perfect for projects where you want to reduce noise levels in the room below.

K-Wave® friction grip backing: Our friction grip backing creates a strong bond to the subfloor.

Laying possibilities: It's not just the floor you choose, but the direction you lay it that makes a lasting impression. From diagonal to herringbone, define your space with an intriguing laying pattern.

Where we sourced our inspiration

For decades, Karndean Designflooring has led the way in durable, luxury vinyl flooring. Our designers draw inspiration from the natural world, perfecting and curating our ranges so each one is as unique as you and your space. Innovative technology and quality materials ensure you own a beautiful floor true to the natural material that inspired it.

Levanzo LLP150

Limed Oak

Traditionally in Northern Europe, oak floorboards were washed with caustic lime to help preserve the timbers and protect them from bugs. Over time, the distinctive chalky wash of residual lime on the oak came to be more appreciated for its beauty than its protective qualities. Today, the lime-washed look is still central to the Scandi-style but is also seen within a wide range of interior styles across the world.

Our Limed Oak collection captures the authentic looks and texture of classic limed oak boards in a versatile choice of luxury vinyl floor planks. Our designers sourced original limed oak floor boards to inspire and guide the development of this select range.

Waterbury LLP152

Budelli LLP146

White Oak

In its native forests of North America, the White Oak is celebrated as one of the USA's most distinguished trees. The distinctive grains, subtle textures and light colourings of White Oak are valued by designers and homemakers seeking to introduce natural tones and classic lines to their interiors.

Our designers have perfectly captured the subtle beauty of White Oak timbers in our LooseLay Longboard collection – open grain patterns, delicate mineral markings and distinctive growth rings all work together to create simply beautiful floors.

Alpine Oak LLP352

Sterling Oak LLP354

Ashland LLP95

Hartford LLP112*

Rustic Oak

Our Rustic Oak collection provides the perfect flooring solution for this relaxed approach to interior styling. Inspired by a range of oak species, our collection of luxury vinyl planks capture more of the imperfections that give these rustic timbers their distinctive and individual charm.

'Rustic' describes the natural characteristics such as variations in colours, grains and staining as well as the finish of the timbers such as rough-sawn edges. These give each plank the personality that has made oak such a popular flooring choice for centuries.

Vintage Timber LLP105

Heritage Oak LLP102

*As a feature of the design, these products incorporate a high variation between individual planks.

Character Oak

Character Oak traditionally refers to the quirky and natural characteristics that make oak so popular. Our designers have captured all the distinctive, naturally occurring colour variations. From the warm classic timber looks to the darker washed brown and charcoal tones, our designers have worked with washing and ageing treatments to bring new character to these timber designs while highlighting their natural beauty.

European Oak

From the palaces of Northern Europe to the chateaux of France, European Oak has been a traditional and luxurious flooring choice for centuries. In the Quercus or Oak genus, there are over 500 different species. European Oak is a description that covers several valued oak species that grow in the forests that still cover around 35% of Europe's land area.

Australian Species

While Australian wood has always been renowned for their strength and versatility, today they are equally valued for their distinctive character. Some of the harshest conditions in the world, including drought, bushfires, and searing summer heat help create the unique wood grains, colours, and tones that we have captured in this collection.

Danish Oak

Long before steel became the preferred material for shipbuilding, the Danish naval fleet was dependent on oak, with up to 2000 mature trees required for a single ship. We sourced samples of these classic timbers and their story is now retold in beautifully replicated oak flooring. Danish oak is recognised as a high quality timber that is used in building, furniture and flooring.

Pietra

In Italian, 'Pietra' means stone. The monolithic style of Pietra has long been a favourite of innovative architects and is considered a minimalist's dream. Increasingly popular with a wide range of architectural and interior styles, our Pietra collection captures the subtle patterning, textures and strength of stone in our luxury vinyl floor tiles. Pietra flooring provides a discreet and inspiring backdrop for your style. It's a versatile complement or contrast to timbers, bricks or the simplicity of a plasterboard wall. Create an industrial aesthetic with ease or a Nordic vibe when teamed with a restrained colour palette of your favourite Scandi-style. If modern rustic is your thing, Pietra can help you create your look with ease.

Honed Limestone

Our Honed Limestone collection captures the timeless beauty of limestone in a versatile range of luxury vinyl floor tiles. It's an elegant solution for bringing the classic style and sophistication of limestone to any interior at a fraction of the cost and effort. Our designers recognised the global appeal of limestone and its popularity in tile form as an elegant and understated solution for contemporary flooring. After etching and sandblasting, honing the stone to create a 'satino' finish and experimenting with stains, the final collection captures the subtle textures and tonal variations of natural limestone.

Concrete

Once the favoured finish of avant-garde architects and experimental designers, concrete today is a shining star throughout the world of design. It's a material of many moods – playing it cool in hard-edged contemporary design or bringing a surprising warmth, fluidity and character to a range of interior styles.

The concrete look is no longer viewed as something grey and dull. Our team have experimented with different colouring techniques to bring you a collection of inspired luxury vinyl flooring that brings depth, character and a new warmth and elegance to the popular look of concrete.

*As a feature of the design, these products incorporate a high variation between individual planks.

Our other ranges at a glance

We offer natural wood and stone-inspired designs featuring all the intricate details and unique characteristics you'd expect to see in traditional flooring. Carefully designed for authenticity, colours are defined with variable shades and tones, just as they are in natural materials. We have an extensive collection of designs, from soft light to darker tones, paired with attractive emboss detailing, there's sure to be a design to define your project.

We offer three flooring formats

We know that choosing a floor that suits you and your home can be challenging. That's why we offer our beautiful, design-led floors in either loose lay, rigid core or gluedown. So you can enjoy exactly the design you want, in the format you need. Please speak to your installer or retailer to discuss your options.

Loose lay

Choose loose lay when...

- You want to reduce noise transfer, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You have a completely flat, dry subfloor, prepared by a flooring professional.

-  Individually replaceable
-  K-Wave® friction grip backing
-  Quick and easy to install
-  Laying possibilities
-  Reduces noise transfer

Rigid core

Choose rigid core when...

- You want superior acoustics, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You want to install over an existing floor such as ceramic tiles or floorboards, or uneven subfloor.

-  Click-locking mechanism
-  Quick and easy to install
-  Reduces noise transfer
-  Installs over most existing hard floors

Gluedown

Choose gluedown when...

- You want to create your floor, with different laying patterns, design strips and decorative borders.
- You want to be able to mix stone and wood designs and create a completely bespoke floor.
- You have a completely flat, dry subfloor, prepared by a flooring professional.

-  Individually replaceable
-  Individual, glued down planks and tiles
-  Design capabilities
-  Laying possibilities
-  No expansion gap required

Korlok Wood & Stone

From the contemporary look of European oak, the Aussie classic Spotted Gum, reclaimed and rustic characteristics of Barnwood and Acacia, to the elegant subtlety of Ash and Butternut, our collection of Korlok woods has a look to suit every interior style.

Our Korlok stone palette features tiles inspired by contemporary concrete, smooth and subtle limestone, traditional terrazzo, and elegant marble, perfect for creating a timeless and on-trend backdrop in your home.

Resources and further information

Biophilia

Reconnecting with nature in the built environment

Biophilia and the part it plays in sustainability to enhance health, performance and wellbeing.

Humans need nature in order to thrive. Yet, to do this sustainably requires resource consumption to be minimised, finding a balance within our ecological systems to ensure the longevity of resources for future use.

An integrated approach that understands and implements the human need for nature within a built space and recognises the need for a balanced resource consumption and environmental preservation, can achieve both health and wellness goals.

Benefits of biophilia in spaces.

- Office:** Research has demonstrated that productivity can be increased by 8%, rates of well-being up by 13% and well as significant increases in creativity.
- Hospitality:** Surveys have suggested that guests are willing to pay 23% more for rooms with views of biophilic elements.
- Education:** The inclusion of nature within education facilities has said to increase rates of learning by up to 20-25% as well as helping to improve test results, concentration levels and attendance. Some research has also suggested that the inclusion of biophilic elements can further reduce the effects of ADHD.
- Healthcare:** Post-operative recovery times have said to be decreased through natural design elements within a hospital and other healthcare facilities, by 8.5% and further reduced pain medication usage by 22%.
- Retail:** The presence of vegetation & landscaping can increase rental rates on retail spaces with customers indicating they were willing to pay 8-12 % more for goods and services.
- Homes:** Can become more calming & restorative, with 7-8% less crime attributed to areas with access to nature and can command an increase of 4-5% in property price.

Environmental

Karndean Designflooring and the environment

At Karndean Designflooring we find inspiration for our products in the beauty of the natural world and feel passionate about bringing this into every product we create. In order to keep our environment protected we do everything we can to continuously improve our manufacturing processes to ensure sustainability whilst delivering best value. We have always aimed to make stylish and durable floors with the lowest possible impact on the environment, and have never had to compromise quality or performance in order to comply with legislation or meet environmental requirements.

Karndean Designflooring is a member of the Green Building Councils of Australia and New Zealand and complies with their requirements under GreenStar. All Karndean products and accessories are manufactured in facilities certified to the ISO 14001 Environmental Management and ISO 9001 Quality Management International Standards. Our approach is based on the use of recycled materials in our floor coverings and ensuring that the finished product is suitable for recycling if required.

What's more...

- All of our packaging is made using recycled material, which we continually review to ensure that it is environmentally friendly and fit for purpose
- We use individual logistical solutions to efficiently and effectively transport our products
- Our storage facilities use high density racking to maximise capacity and minimise impact
- Our offices are introducing innovative energy saving techniques
- We are members of the Green Building Council Australia (GBCA) and Green Building Council New Zealand (NZGBC)
- Our products qualify for eco-points towards GreenStar building projects
- All of our adhesives are water based, solvent-free, have low VOC emissions and are GreenTag certified

GreenStar GreenTag™ certified

The majority of Karndean luxury vinyl ranges are fully certified to Global GreenTag, the third party multi-criteria, consensus based and externally verified Type 1 eco-labelling program. This is one of the largest product sustainability certification systems in Australasia and the only certification mark approved by the Australian Competition and Consumer Commission (ACCC).

GreenTag comprises two certification systems and the majority of Karndean Designflooring luxury vinyl is certified under both.

LCARate™

The future

Our continued product innovation focuses on reducing our environmental impact and complying with environmental legislation and recognized certifications worldwide. Our aim is to remain the leading supplier of LVT flooring and to have a market-leading environmental record of achievement through the development of sustainable products and processes.

Life Cycle Analysis is for all products and all rating tools that engage LCA with separate output called an Environmental Product Declaration (EPD), which is a summary LCA report used for certain credits in some rating tools for GreenStar.

GreenRate™

GreenRate is a straight Type 1 eco label developed to meet the requirements of specific green building rating tools. It includes indoor environmental air quality: volatile organic compounds compliant (IEQ VOC) and reduced exposure to pollutants. GreenRate is offered in three levels of quality from Level 'C' up to Level 'A' relevant to GreenStar in Australia and New Zealand.

Karndean Designflooring LVT ranges and adhesives are fully certified under GreenStar GreenRate Level 'A', plus under international FloorScore Indoor Air Quality Certification for low emitting VOC's. Also certified to LCARate "silver streamline".

Cleaning and maintaining your Karndean floor

Karndean Designflooring is hardwearing and easy to look after. Our enhanced surface treatment helps protect against everyday wear, spills and scuffs. This makes it easier and more environmentally friendly to clean and maintain, giving you peace of mind that your Karndean floor will look great for years to come. We have a dedicated section on the website with videos that explain how best to look after your Karndean floor and covers lots of frequently asked questions from our customers.

Choosing the right flooring adhesive

We recommend that you use our range of environmentally friendly Karndean Designflooring adhesives that are available for you to order. The type of adhesive required will depend on the application and location of the installation.

Karndean Mega-Bond Adhesive

Karndean Mega-Bond is a non-solvent and low odour adhesive suitable for indoor use. Mega-Bond is used for all Karndean LVT glue backed installations. Apply Mega-Bond using a V1 1.6mm x 1.6mm notched trowel and install into a wet film (do not let the adhesive tack-up). Refer to AS/NZS 1884 for best practice subfloor preparation.

Karndean Hi-Tack PS

Karndean Hi-Tack PS is a pressure sensitive 'peel and release' adhesive used for installing loose lay tiles and planks. Use a V1 notched trowel to apply Hi-Tack PS evenly over the subfloor allowing it to dry into a 'clear film' before installation.

Karndean 8000 2-Part Waterproof / High Temperature Adhesive

Karndean's 2-Part Polyurethane is a waterproof, high temperature adhesive for use in circumstances when excessive water puddling or high temperatures are expected. It can also be used for adhesion to non-porous substrates such as steel. When mixing parts 'A' & 'B' together an extreme permanent chemical bond is achieved.

Imagery and Design Reproduction

Photography and print cannot always produce a perfect representation of our products. This includes colour, pattern variation and installation elements used. For this reason we strongly recommend obtaining a product sample and where possible viewing a larger sample in-store. We also recommend visiting our website for information on installation, after care and product selection: www.karndean.com/advice. We love developing new ideas and improving on our existing designs which means that sometimes products are withdrawn at short notice. We hate to disappoint and will work with you to find an alternative design. Please contact Customer Service for more information.
